

NAGAR DRISHTI (नगर दृष्टि)

Official Website & Core Features Walkthrough Script

2-MINUTE FEATURE DEMO

🕒 Exactly 2:00 • 270 Words

DURATION 2:00 Minutes	WORD COUNT 270 Spoken Words	NARRATION RATE ~135 Words / Minute
---	---	--

📺 SCREEN ACTIONS & SPOKEN NARRATION (2 MINUTES)

1. Dashboard Overview & Live Telemetry Feed 00:00 - 00:20 (20s)		
🖥️ SCREEN ACTION Open DashboardView.tsx. Hover over the real-time KPI counters (48 Active Buses, Latency 38ms, Ingested Defect Ticker).	🗣️ SPOKEN SCRIPT "Welcome to Nagar Drishti—an autonomous urban intelligence platform. Our dashboard connects live with 48 public transit buses running edge-AI cameras. It provides city authorities with instant real-time telemetry, defect ingestion velocity, and live 1-hour SLA breach monitoring."	
2. Live GIS Command Radar & Defect Heatmaps 00:20 - 00:40 (20s)		
🖥️ SCREEN ACTION Click Live Map (LiveMapView.tsx). Show moving DTC buses, toggle heatmap layer, click a defect marker to reveal bounding box & volume.	🗣️ SPOKEN SCRIPT "Our Live GIS Radar tracks bus fleets moving in real time along active city corridors. With spatial deduplication and integrated heatmaps, it pinpoints potholes, leaking water mains, and streetlight outages—complete with crater volume calculations and 96% AI confidence scores."	
3. Smart Work Orders & IRC:82 Engineering Standards 00:40 - 01:00 (20s)		
🖥️ SCREEN ACTION Click Tickets & Work Orders (TicketsWorkOrdersView.tsx). Show Kanban board, click ticket TK-8921 to show IRC:82 SOPs & Before/After photo audit.	🗣️ SPOKEN SCRIPT "Under Work Orders, tickets auto-route to PWD, Jal Board, or BSES via custom rule engines. Each work order contains official Indian Road Congress IRC:82 repair SOPs, estimated materials, and mandatory Before-and-After photo verification to guarantee contractor accountability."	
4. Multimodal Gemini AI Copilot (Voice & Bilingual) 01:00 - 01:20 (20s)		
🖥️ SCREEN ACTION Click 'Ask Nagar AI' pill (AiCopilotModal.tsx). Click prompt '1-Hour SLA Breaches', play speech synthesis output, click suggested deep link.	🗣️ SPOKEN SCRIPT "Our floating Gemini Multimodal AI Copilot supports natural voice queries and audio speech output in both English and Hindi. Grounded in municipal engineering standards, it delivers instant SLA breach analysis, material forecasting, and one-click operational dispatch."	
5. Public Commuter Tracker, Cabin SOS & Multi-Agency Hub 01:20 - 01:40 (20s)		
🖥️ SCREEN ACTION Switch role to Public Commuter (PublicBusTrackerView.tsx). Show Route 522 live ETA/occupancy. Open Cabin SOS, then glance at Multi-Agency Hub.	🗣️ SPOKEN SCRIPT "For citizens, the Public Bus Tracker provides live transit ETAs and real-time occupancy. Passengers also get an onboard Cabin Safety SOS with CCTV snapshots. Meanwhile, our Multi-Agency Coordination Hub brings all utility departments into a live operational war room."	

6. Accident Blackspot Analytics & Sovereign Localization	
01:40 - 02:00 (20s)	
SCREEN ACTION Click Accident Blackspots (AccidentBlackspotAnalyticsView.tsx). Click 'हिन्दी / EN' language button in the top nav to show full Hindi UI.	SPOKEN SCRIPT <i>"Finally, our Accident Blackspot Analytics couples historical hazard corridors with remedial engineering action tracking. With one-click CSV export, bilingual English-Hindi localization, and dark-light glassmorphism, Nagar Drishti delivers a complete next-generation civic platform. Thank you!"</i>

 **CONTINUOUS SINGLE-TAKE SCRIPT (READ IN 2 MINUTES)**

"Welcome to Nagar Drishti—an autonomous urban intelligence platform. Our dashboard connects live with 48 public transit buses running edge-AI cameras. It provides city authorities with instant real-time telemetry, defect ingestion velocity, and live 1-hour SLA breach monitoring.

Our Live GIS Radar tracks bus fleets moving in real time along active city corridors. With spatial deduplication and integrated heatmaps, it pinpoints potholes, leaking water mains, and streetlight outages—complete with crater volume calculations and 96% AI confidence scores.

Under Work Orders, tickets auto-route to PWD, Jal Board, or BSES via custom rule engines. Each work order contains official Indian Road Congress IRC:82 repair SOPs, estimated materials, and mandatory Before-and-After photo verification to guarantee contractor accountability.

Our floating Gemini Multimodal AI Copilot supports natural voice queries and audio speech output in both English and Hindi. Grounded in municipal engineering standards, it delivers instant SLA breach analysis, material forecasting, and one-click operational dispatch.

For citizens, the Public Bus Tracker provides live transit ETAs and real-time occupancy. Passengers also get an onboard Cabin Safety SOS with CCTV snapshots. Meanwhile, our Multi-Agency Coordination Hub brings all utility departments into a live operational war room.

Finally, our Accident Blackspot Analytics couples historical hazard corridors with remedial engineering action tracking. With one-click CSV export, bilingual English-Hindi localization, and dark-light glassmorphism, Nagar Drishti delivers a complete next-generation civic platform. Thank you!"
